

PLANNING FOR AND MANAGING SOCIAL RISKS

AFOA Saskatchewan

March 8, 2013

Gina Potts, COO, A3 Limited

Welcome / Invocation – Treaty Six Territory

AFOA Saskatchewan Acknowledgement

A3 Limited - Who are we and what do we do?

A member of Alexis Nakota Sioux Nation, fluent in Nakota. I have worked with First Nations within Western Canada / NWT in the areas of governance, organizational change, policy development, proposal writing and strategic planning.

We provide Management Consulting within these areas.

Social Planning Objectives

- Indicators of social risks
- Understanding the financial dynamics of addressing social risks
- Socio cultural aspects of managing social change
- Increased understanding to execute a plan for social change
- Measuring your performance

Indicators of Social Risks

Age, Sex and Hereditary Factors

Individual Lifestyle Factors

Social and Community Influences

Living and Working Conditions

Socio Economic Cultural and Environment Conditions

Understanding the Financial Costs

- Social risks are unplanned
- Costs are not controlled
- Emotional Investment
- Socio Cultural Investment
- Creating a strategy for change management

Managing Social Change

- Who is responsible – Terms of Reference
- Collective Action – Creating Dialogue
- Compile information and data from different sectors
- Benchmark your vision for community wellbeing
- What is Plan B

Execute a Plan

- What are the priorities – what needs action now
- Create the business case
- Who are key participants
- Prevention vs Intervention
- Engaging your membership

Measuring Performance

- Review your plan annually
- Is there a reduction of social incidences
- Complete a community assessment
- What does the balance sheet tell us
- Revise the plan

Thank you, Ishnish
